

The screenshot shows the Sys Optimizer Cleaner interface. At the top, the title bar reads "Sys Optimizer" with standard window controls. Below the title bar, the word "Cleaner" is displayed on the left, and the time "6:02 PM" is on the right. A teal notification bar at the top states "Cleaning Completed on your system." with a green dot icon. The main area lists three categories, each with an icon and a green checkmark:

- Internet Files** (Globe icon): (No Information)
- Windows and Software Files** (Folder icon): (No Information)
- Performance Improvements** (Gauge icon): Issues fixed

At the bottom of the main area are two buttons: "Scan" and "Clean & Optimize". Below this is a status section with a gauge icon on the left. The text reads: "Normal: No process that use more than normal allocation of system resources detected". To the right of this text are two toggle switches: "Game Booster" and "Live Monitor", both of which are currently turned on (indicated by a teal bar).
